1)

---

This is my normal view page. This page allows us to view a book as well as create a new one.

2)

### New book

Title  
Sample Book #3  
  
[Back to books](#)

This is what happens when you press the new book page. This is an example of creating a new book.

3)

## Editing book

Title  
Sample Book #2  
  
[Show this book](#) | [Back to books](#)

This is what happens when you press show book and edit this book. We are able to edit the title of the book look at the book or go back to books.

4)

The screenshot shows a web browser window with the address bar displaying 'localhost:3000/books/17'. The browser's address bar includes navigation icons (back, forward, refresh) and a star icon for bookmarks. Below the address bar, there is a dark navigation bar with links: 'Howdy', 'leetcode', 'LL', and 'Bit Manipulation'. The main content area is titled 'Book Details' and shows 'Title: Sample Book #1'. At the bottom, there are three links: 'Edit this book', 'Back to books', and 'Delete this book'.

Book Details  
Title: Sample Book #1  
[Edit this book](#) | [Back to books](#) | [Delete this book](#)

This is what happens when we look at the details of the book. We are allowed to edit and delete the book as well as go back to books.

5)

### Confirm Deletion

Are you sure you want to delete this book?

[Cancel](#)  
[Destroy this book](#)  
[Back to books](#)

This is what happens when we press destroy book. It gives us a deletion page where we can destroy a book.

6)

---

Book was successfully destroyed.

### Books

Title: Sample Book #2

[Show this book](#)

[New book](#)
